NOTICE TO PARENTS AND RESIDENTS

Temporary Road Closure Pineridge Drive and 14th Street from Westridge Drive to Canterbury Way During October & November 2021

MarWest Industries Ltd (Castlegar) will be undertaking the installation of municipal sanitary sewer collection pipes under Pineridge Drive/ 14th Street from Westridge Drive to Canterbury Way during fall of 2021. MarWest Industries Ltd has been contracted to do the work. The project will be commencing in early October 2021 and will require approximately three (3) to four (4) weeks

Students who normally walk along Pine Ridge Drive to David Thompson Secondary should be encouraged to walk to the school via Westridge Drive to avoid the construction area during this time.

Private Vehicles will not be allowed access to Pineridge Drive/ 14th Avenue between Westridge Drive & Canterbury Way except when allowed by MarWest. Private Vehicles will have to use 15th Avenue & Westridge Drive instead of 14th Street while MarWest completes the installation of sanitary sewer pipes.

Fortunately, the interruptions to the regular movement of Private Vehicles along Pineridge Drive/ 14th Street will be temporary. MarWest expects to complete the pipe installation in October, and then repave the road thereafter leading into November.

Recommendations for Parents and Residents during Pineridge Drive/ 14th Street reconstruction:

- Expect some traffic delays along nearby streets, especially before and at the end of school days, and allow extra travel time.
- At all times, yield to school buses to help support the drop off and pick up of children.
- If possible, walk instead of drive to your destination (e.g., school, work, shopping).
- To help keep children and young adults safe direct them to avoid all construction areas along Pineridge Drive/14th Avenue.
- Avoid travel on Pineridge Drive/14th Avenue from Westridge Drive to Canterbury Way until construction is completed.
